

Board of CPAs

• Mission and philosophy

To regulate the practice of public accounting by CPAs in the public's interest; to provide and administer the Uniform CPA examination to qualified candidates; to issue CPA certificates and permits; to enforce provisions of CPA Act and Rules and Regulations within a constantly changing environment. By ensuring the highest standards are imposed, we assist the public through a means of assuring that services are provided by competent individuals and firms.

• Results of outcomes

The board of CPAs:

- Drafted and filed amendments to four chapters of the agency's regulations.
- Acted as liaison with other national representatives to insure statutes and regulations are comparable to national standards.
- Held several disciplinary hearings and conducted numerous investigations as a result of complaints filed.
- Created a Web site which allows access to all statutes and rules, in draft and final stage, access to the database of all licensed individuals and firms and access to application forms which can be downloaded.
- Published two informational newsletters.
- Created a task force to study a national model for a uniform accountancy act which will study potential future legislation.

• Strategic plan changes

As a licensing board, the Board of CPAs was included in the Department of Commerce's strategic plan. Pending the disposition of licensing boards in the current department, the board will study the necessary changes to the strategic plan, and also investigate legislation to increase the maximum fees imposed by statute.
